MEMORANDUM FOR: Director of Central Intelligence

STAT FROM: Dean of Conferences
Center for the Study of Intelligence

SUBJECT: Reception for University Professors

1. The Center for the Study of Intelligence invites you to a reception in the Executive Dining Room on Monday, 11 June 1984, at 1800 hours to meet with 25 university professors.

2. The Center, in conjunction with the Career Training Task Force, is sponsoring a second 2-1/2 day "Conference on Intelligence: The Organization and the Profession" for professors teaching courses on intelligence who have had little or no previous contact with the Intelligence Community. Although one objective is to orient them to both the Community and the Agency, our main goal is academic contacts more likely and better able to encourage students to consider Intelligence as a career.

3. We would be pleased if your schedule permitted you to attend and to make a few general remarks.
